Post Grad: A Pre-Life Crisis

Cassel, Emily

The novelisation of a feature film (in the vein of 'Juno' and 'Little Miss Sunshine') being released in January 2010 about a recent college grad (Alexis Bledel, star of "The Gilmore Girls" and 'Sisterhood of the Traveling Pants') who moves back in with her eccentric family while she tries to meet the right guy and figure out what she wants to do next in her life. The film will also star Carol Burnett, Michael Keaton, Rodrigo Santoro, and Zach Gilford ("Friday Night Lights") and will be promoted across a whole range of media with an innovative marketing plan. The title and the cover art will be the same as the promotional material for the movie.

Gifted 3: Here Today, Gone Tomorrow

Kaye, Marilyn

Meadowbrook Middle School is an ordinary school with ordinary students - queen bees, jocks, nerds, brains, all the usual suspects. With nine exceptions. These students look like the others, but each of them has a special supernatural attribute that marks them out. You could call it a skill, a talent or a disadvantage, but each of these students is unique - they're gifted.

Shy, dreamy Emily's premonitions aren't always quite right, and the gifted class usually don't take her seriously. But as Emily's visions get clearer, her classmates are forced to listen to her - before it's too late...

Big Bear, Little Brother

Norac, Carl

Illustrator: Oftedal, Kristin
